Document 2: Health and Safety Policy Details

Part 1: Introduction

This is Document 2 of 2 documents. Document 1 contains the statement of general policy and arrangements. This document illustrates our organisation and the arrangements for ensuring Health, Safety and Wellbeing (HS&W).

The two documents are therefore the overall health, safety and wellbeing policy. The policy is then implemented through sub-policies, risk assessments and the resulting procedures and actions needed to manage significant risks.

The policy mentions several other important topics relevant to educational premises which have different statutory origins from employee health and safety. These are:

- Safeguarding children;
- Food safety;
- Environmental protection;
- Transport safety

They also have their own policies or sub-policies and procedures. They need to be managed in a way that avoids gaps and ensures the health, safety and wellbeing of employees, children and the public.

Part 2: Organisation

The following sections describe the organisational role and the responsibilities of key post holders for ensuring significant risks are managed. The sections following the arrangements heading describe how we go about operating our safety system.

There are additional risk management issues for the organisation which are not dealt with in detail in this policy. They include:

- a. Financial risk
- b. Reputational risk

They are controlled through other policies and procedures.

1.		Role of the local authority
	1.	Rangeworthy is a voluntary controlled school
	2.	It is part of the South Gloucestershire Local Authority
	3.	Our setting is linked with the Gloucester Diocese
	4.	Our setting's vision is: 'Let Your Light Shine' An inclusive, caring family in which each individual is known and valued.
	5.	Our settings values are the following: Respect, Responsibility and Friendship
2.		Role of The Governors and Headteacher have agreed to our settings overall ethos and values which are described above in Section 3.
	1.	The Governors and Headteacher have agreed our settings overall ethos and values which are described above.
	2.	The Governors and Headteacher of Rangeworthy recognise the need to identify organisational details in our setting for implementing, monitoring and controlling HS&W matters. They also accept the need to consult individuals before allocating particular health and safety functions. Individual duties including reporting arrangements and, therefore, organisation and accountability follow.
	3.	The governors/ Headteacher are committed to meeting the safeguarding requirements set out in the government guidance "Keeping Children Safe in Education* and Working Together to Safeguard

4. The Governors and Headteacher will make preparations to deal with:

Critical incidents at our setting such as fire, flood, illness, threats of violence and terrorism, bereavement:

Continuity of business in the event of a threat such as that created by a critical incident; The **Contribution** by the school to help the community at large cope with some kind of major incident. An example would be providing a rest centre if a fire meant people were unable to stay at their homes.

These are the **3 C**'s as set out by our competent support Delegated Services in a parallel and supporting documentation. Some of the preparation is mentioned here because of the obvious overlap with health, safety and wellbeing.

- 5. The Governors and Headteacher will ensure that related "health and safety" topics such as food safety and road safety are also considered. These are mentioned in sections below but will also be covered elsewhere. One example is the Hazard Assessment and Critical Control Points food management system used in catering.
- 3. Role of Headteacher
 - The Headteacher is appointed by the governors. They are accountable to the Governors for implementing the school's HS&W Policy and for all matters relating to HS&W within our setting. Safeguarding issues and the 3C's cross-relate to Health, Safety and Wellbeing.

Part 3: ARRANGEMENTS – what do people do?

Introduction: When roles, titles, etc., change, they will be updated in this document at its next review.

This policy is part of the school's overall health, safety and wellbeing system and the graphic below illustrates how it fits with some other parts of the system.

South Gloucestershire Council will follow the advice in HSE document HSG 65 "Managing Health and Safety" and in particular the approach summarised as "Plan, Do, Check, Act" as illustrated below:

South Gloucestershire Council is aware of the key elements of the Sentencing Council guidelines. In a court case, if a guilty verdict is reached the elements considered include the following matters.

Document 2 of 2 Version Page **15** of **33**

Culpability: Where there are factors present in the case that fall in different categories of culpability, the court should balance these factors to reach a fair assessment of the offenders' culpability.

Risk rating	Factors present
Very High	Deliberate breach of or flagrant breach of the law
High	Offender fell far short of the appropriate standard, for example by:
	 Failing to put in place measure that are recognised standards in the industry
	 Ignoring concerns raised by employees or others
	 Failing to make appropriate changes following prior incident(s) exposing risk to H&S
	 Allowing breaches to subsist over a long period of time
	Serious/ systematic failure within the organisation to address risks to H&S
Medium	Offender fell short of the appropriate standard in a manner that falls between descriptions in
	high and low culpability categories
	Systems were in place but these were not sufficiently in place/ adhered to
Low	Offender did not fall far short of the appropriate standard, e.g., because:
	 Significant measures were made to address the risk although they were inadequate on this occasion
	 There was no warning/ circumstance indicating a risk to H&S
	Fallings were minor and occurred as an isolated incident

Harm: Health and safety offences are concerned with failures to manage risks to health and safety and do not require proof that offence caused any actual harm. **The offence is in creating a risk of harm**Use the table below to identify an initial harm category based on the risk of harm created by the offence. The assessment of harm requires a consideration of **both**:

- The seriousness of the harm risked (A, B or C) by the offenders' breach; and
- The likelihood of that harm arising (high, medium or low)

Likelihood	Level A	Level B	Level C
of harm	 Death Physical/ mental impairment relying on lifelong third-party care for basic needs Significantly reduced life expectancy 	 Physical/ mental impairment, not amounting to level A, which has a substantial and long-term effect on the sufferer's ability to carry out normal day-to-day activities or on their ability to return to work A progressive, permanent or irreversible condition 	All other cases not falling within Level A or Level B
High	Harm category 1	Harm category 2	Harm category 3
Medium	Harm category 2	Harm category 3	Harm category 4
Low	Harm category 3	Harm category 4	Harm category 4 (bottom of range)

Magistrates and Judges are given guidelines for sentencing, and also the penalties that these offences are to incur. This will depend on the category of the breach, and also the size of the organisation, more information and fining structures can be found below:

The level of fines awarded are also influenced by other factors that need to be taken into account:

Factors increasing seriousness

Statutory aggravating factors

• Previous convictions, having regard to a) the nature of the offence to which the conviction relates and its relevance to the current offence; and b) the time that has elapsed since the conviction

Other aggravating factors include

- Cost-cutting at the expense of safety
- Deliberate concealment of illegal nature of activity
- Breach of any court order
- Obstruction of justice
- · Poor health and safety record
- Falsification of documentation or licences
- · Deliberate failure to obtain or comply with relevant licences in order to avoid scrutiny by authorities
- Targeting vulnerable victims

Document 2 of 2 Version Page **17** of **33**

Factors reducing seriousness or reflecting mitigation

- No previous convictions **or** no relevant/recent convictions
- Evidence of steps taken voluntarily to remedy problem
- High level of co-operation with the investigation, beyond that which will always be expected
- Good health and safety record
- Effective health and safety procedures in place
- Self-reporting, co-operation and acceptance of responsibility

A to Z Arrangements by topic

The following health, safety and wellbeing topics are listed alphabetically. They are intended as an outline of the arrangements made. The health and safety management systems are extensive and consists of documents, posters, training, standard operating procedures and many other aspects. Within a basic structure there are day to day decisions, dynamic risk assessments and risk assessments being updated, new guidance being received and new training being absorbed.

The governors and school management are aware that there is additional law other than occupational health and safety law that may affect what is commonly called "health and safety". This includes licensing law, highway and transport legislation, food safety, environmental management and the area of civil law.

1.		Accident (this includes near-miss incidents and cases of aggression/violence) Reporting.
	1.	There is a legal requirement to report certain accidents under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013 usually called RIDDOR. All accidents are to be reported in line with the procedures contained in the 'Policy and Procedures for Reporting Incidents of Violence, Injuries, Diseases and Dangerous Occurrences'. Accident and incident forms, which are available online, are to be sent to Delegated Services, the school's competent person. This procedure will be brought to the attention of all employees through training.
	2.	All employees and pupils will be encouraged to report near misses so that potentially hazardous situations can be dealt with. (See Procedures for Accident/Incident Management).
2.		Administration of Medicines
	1.	Arrangements for the Administration of Medication in the School will be in accordance with the 'Policy and Procedure for Supporting Children at School with Medical Conditions'.
	2.	This procedure will be brought to the attention of all employees, volunteers and parents. The aim is to ensure the school knows of any medical conditions requiring either day to day medication or emergency medication.
	3.	Parents and carers know they will be informed of medication administered and any additional information which will help in the longer-term management of the medical condition.
_	4.	The policy can be found on the school website.
3.		Asbestos Management
	1.	There is asbestos on site and the school manages the risk in line with the Asbestos management plan and risk assessment held in the premises H & S Folder.
	2.	The procedures include the training of senior staff and other staff members.
	3.	In addition, there will be supervision and management of contractor and volunteer activity to prevent damage to or exposure of asbestos containing materials. For more information see the Headteacher.
4.		Banning- see Warning and Banning
5.		Buildings and premises
	1.	The management of the school's premises will be assisted by the keeping and use of documentation. This will enable planned maintenance, asset protection, audits and provide references for future work.
	2.	 Key documents (paper or electronic) are found in the school office and on the Admin Drive and will include: Records of compliance, maintenance, inspections and repairs; Defect reporting procedure; Fire, Asbestos, Legionella, radiation and other key matters as required –if they are required; Insurance inspections; Defect reports; Other documents as needed.
